Air Quality Program

Headquarters

Assistance Program

The Business Assistance Program has no enforcement authority. It will work with businesses to provide information on:

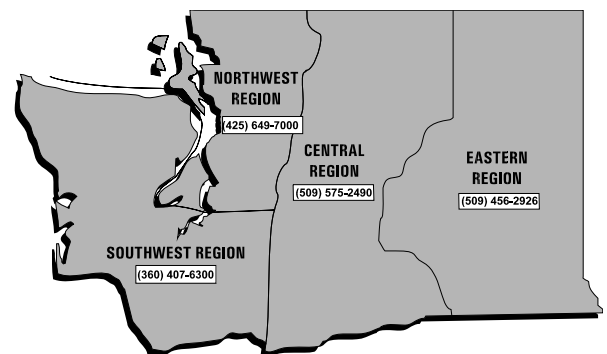

- ♦ Air pollution laws, technology and compliance measures.
- ♦ Pollution prevention methods and technologies, including accidental releases.
- ♦ Health and environmental effects of air pollution.
- ♦ Assistance in obtaining permits.
- ♦ Production process changes, material substitutions and equipment modifications

Washington State Department of Ecology
Business Assistance Program
P.O. Box 47600
Olympia, Washington 98504-7600

The Hazardous Waste and Toxics Reduction Program is responsible for the management and reduction of hazardous waste and toxic substances in Washington State. We're available to answer your questions. Contact your nearest regional office and ask for a Toxics Reduction Specialist for information on reducing or recycling hazardous waste. And if you are uncertain about your responsibilities as a hazardous waste generator, ask for a Hazardous Waste Specialist.

If you have special accommodation needs or require this document in alternative format, please contact the Hazardous Waste and Toxics Reduction Program at (360) 407-6700 (Voice) or (360) 407-6006 (TDD).
